Eighth Annual

China Town Hall
Local Connections, National Reflections

Thursday, October 16, 2014

China's rapid development and Sino-American relations have a direct impact on the lives of just about everyone in the United States. This is a national day of programming designed to provide Americans across the United States and beyond the opportunity to discuss these issues with leading experts.

The National Committee is pleased to present this program, which will feature a live webcast with Jimmy Carter, 39th president of the United States, as part of the Conversations at The Carter Center speaker series, along with local presentations from on-site China specialists addressing topics of particular interest to the community.
